SONISEAL™ WD SERIES

The Soniseal™ WD series of bonders are ideal for packaging applications in food manufacturing environments in which lower maintenance, reduced energy costs and sanitary design are priorities.

- Minimize delays from heating and cooling the machine when cleaning
- Easy integration with existing equipment
- Strong, hermetic seals
- Seals at speeds up to 500 fpm / 150 mpm

Aurizon is now offering a 40 kHz rotary ultrasonic bonder designed specifically for wash-down areas.

- Full wash-down capability
- Available in single drive
- 316L stainless steel construction
- Corrosion-resistant
- Withstands high pressure spray and high temperatures
- Isolated electronic components are completely protected from moisture
- Suitable for chemical cleaning
- Designed to IP 67 Standards
- Optional electropolish finish

Aurizon Ultrasonics works to understand customers’ goals then develops the most fitting, powerful solution based on our extensive technological expertise. Contact us to learn more.
SONISEAL™ WD SERIES

Every component on the Soniseal™ WD series of bonders was designed to withstand typical sanitation practices.
